Re: Petition of Senator Dinniman for Interim Emergency Relief; Docket No. P-2018-3001453;  
Senator Dinniman v. Sunoco Pipeline L.P.; Docket No. C-2018-3001451

Dear Secretary Chiavetta:

Pennsylvania can't afford to prevent the Mariner East 2 (ME2) pipeline project from finishing. According to an updated Econsult Solutions, Inc. study, ME2 and Mariner East 1 have the potential to make \$9.1 billion on our economy.

Derry Township and communities all around the commonwealth could do a lot of good with this money. This money means investments in our schools, our emergency organizations, local businesses and other critical parts of small communities. It also means new, family-sustaining jobs and opportunities for our community.

Before and during construction, Sunoco Pipeline has had a constant pipeline of communication about the project. They have communicated with local officials in a timely, efficient manner. Sunoco Pipeline representatives have quickly addressed concerns and kept in touch with all stakeholders about ongoing construction and the project as a whole.

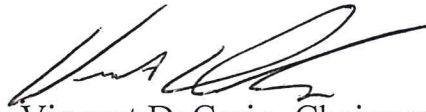

We would work with Sunoco Pipeline again and look forward to a long-lasting relationship with them. It's time to let them finish ME2 so our state can fully reap all the benefits associated with this pipeline.
