Re: Sunoco Pipeline L.P.; Docket No. C-2018-3001451

Throughout construction of the Mariner East 2 pipeline, Sunoco Pipeline has been a respectful neighbor. Even before the start of construction activities in Fairview Township, representatives from the company met with our township to inform us on a wide range of topics, including what to expect throughout construction and beyond. These team members have been nothing but professional, addressing our questions and concerns in a timely and responsive manner. Sunoco Pipeline has continued to proactively reach out with regular meetings and at a minimum, weekly updates on construction as this multibillion-dollar infrastructure project progresses. This project traverses the entire East-West distance of Fairview Township.

This construction added to other construction throughout our Township causes traffic delays and constituent concerns. Before the start of the Project, Sunoco and the Township videoed all the pipeline crossings, and we have been assured that restoration following construction will go smoothly. Sunoco Pipeline has helped to make the process as efficient and transparent as possible. We are eager for Sunoco Pipeline to continue at a faster pace than the last few months, and hopefully be complete by the end of this year.

Sincerely,

Donald F. Martin, Fairview Township Manager
